

SECTION 1

Product & Supplier Identification

Product Name	Budget Fineliner
Other Names	None
Product Code	PN117 and PN121
Barcode Number	
Recommended Use	Writing instrument.
Restrictions on Use	None known
Company	Zart Art
ABN	24 621 120 321
Address	14-17 Dansu Court, Hallam, VIC 3803
Telephone	+61 3 9890 1867
Supplier Code	
Emergency Phone Number	Australia – 13 11 26 (Poisons Information Centre)

SECTION 2

Hazards Identification

Classification of the hazardous chemical

Hazardous Chemical, non-dangerous good according to SWA and the ADG code.

Physical hazards	Not classified	
Health hazards	Serious eye damage / irritation	Category 1
	Carcinogenicity	Category 2
	Specific Target Organ Toxicity (Single Exposure)	Category 3
	Acute Toxicity (Oral)	Category 4
Environmental hazards	Not classified	

Label elements, including precautionary statements

Hazard symbols

Corrosive
DANGER

Health hazard

Exclamation mark

Signal word

Hazard Statements

H318	Causes serious eye damage.
H351	Suspected of causing cancer if swallowed.
H302	Harmful if swallowed.
H336	May cause drowsiness or dizziness.

Precautionary statements

Prevention

P202	Do not handle until all safety precautions have been read and understood.
P280	Wear eye, hand and face protection.
P264	Wash hands thoroughly after handling.
P261	Avoid breathing vapours.
P270	Do not eat, drink or smoke when using this product.
P271	Use only outdoors or in a well-ventilated area.

Response

P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P308+P313	IF exposed or concerned: Get medical advice / attention.
P304+P340	IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P301+P312	IF SWALLOWED: Call a POISON CENTRE if you feel unwell.
P330	Rinse mouth.
P310	Immediately call a POISON CENTRE / doctor.

Storage

P403+P233	Store in well ventilated place. Keep container tightly closed.
P405	Store locked up.

Disposal

P501	Dispose of contents/container in accordance with local regulations.
------	---

SECTION 3 **Ingredient Composition / Information**

<u>Chemical Entity</u>	<u>CAS No.</u>	<u>Proportion (to 100%)</u>
Basic Blue 7	2390-60-5	<3%
Ethylene glycol	107-21-1	20 – 40%
Ethanol	64-17-5	<5%
Non-hazardous components		to 100%

SECTION 4 **First Aid Measures**

General Information You should call The Poisons Information Centre if you feel that you may have been poisoned or irritated by this product. Call 13 11 26 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.

Description of necessary first aid measures

Eye	Immediately rinse with plenty of gently, running water for atleast 15 minutes, with eyes open wide as much as possible. Seek urgent medical attention.
Skin	Immediately wash contaminated skin with running water for atleast 30 minutes. Remove any contaminated clothing while under the safety shower. If any symptoms arise and/or persist seek medical attention.
Swallowed	Immediately rinse mouth with water. Repeat until contaminant is thoroughly removed. Give water to drink. Do not induce vomiting as this may risk further damage. If vomiting occurs give water to help dilution. Seek medical attention.
Inhalation	Remove affected person to a fresh air or well ventilated area. Seek medical attention if symptoms persist.

Personal protection for first aid responders

Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

Symptoms caused by exposure

Direct contact with eyes may cause stinging / burning, tearing, redness and blurred vision.
 Direct contact with skin may cause burning, redness and general irritation.

Medical attention and special treatment

Provide general supportive measures and treat symptomatically. Keep under observation as symptoms may be delayed. If not already done seek medical attention.

SECTION 5 **Fire Fighting Measures**

Extinguishing equipment

Suitable	Water, fog, foam, dry chemical powder, carbon dioxide. When choosing extinguishing equipment be aware of any potential hazard(s), example electrical.
Unsuitable	Anything that could spread the fire and or risk the safety of surrounding personnel.

Specific hazards arising from the chemical

No specific information available.

Specific protective equipment and precautions for fire fighters

Self-contained breathing apparatus (SCBA) and full protective clothing (PPE) must be worn in case of fire.

Hazchem Code Not available

General fire hazards Product contains a highly flammable liquid.

SECTION 6
Accidental Release Measures

Personal precautions, protective equipment and emergency procedures
For non-emergency personnel

Individual products, wear appropriate protective equipment, clean up any with Absorbent material and dispose of item and clean up materials in accordance with local regulations. Bulk quantities keep unnecessary personnel away, isolate hazard area and prevent entry. If safe to do so stop leak. Wear appropriate protective equipment during clean up. Contain spill to prevent contamination to drains / water ways. Environmental Protection Authority and Local authorities should be contacted if spill cannot be contained. Collect and seal in clearly labelled containers for disposal in accordance with local regulations. Heed advice under Section 8 "Personal Protection".

For emergency responders

Bulk quantities keep unnecessary personnel away, isolate hazard area and prevent entry. Wear appropriate protective equipment during clean up. Contain spill to prevent contamination to drains / water ways. Heed advice under Section 8 "Personal Protection".

Environmental precautions

Avoid discharge to drains, water ways or onto the ground.

Methods and materials for containment and clean up

Large spills – Wear PPE refer Section 8. If safe to do so, stop flow of material and contain spill. Absorb spill in sand, vermiculite, dry earth or other inert absorbent material. Collect and seal in clearly labelled containers for disposal in accordance with local regulations. Small spills – Wipe / clean up with absorbent material, for example a cloth and dispose of in accordance with local regulations.

SECTION 7
Handling & Storage

Precautions for safe handling

Avoid contact with eyes, skin and clothing. Use in a well-ventilated area. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store in a cool, sheltered location away sources of ignition. Keep containers tightly closed when not in use. Store in clearly labelled containers.

SECTION 8
Exposure Controls / Personal Protection

Occupational exposure limits

No OEL's noted for this product. However, for individual components,

Ethylene glycol(vapour)	107-21-1	20ppm (TWA)	40ppm (STEL)
Ethylene alcohol	64-17-5	200ppm (TWA)	800ppm (STEL)

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to a minimum.

Biological limit values

No biological exposure values noted for this product.

Appropriate engineering controls

Use in a well-ventilated area. Provide an eyewash station and safety shower.

Individual protection measures, for example personal protective equipment (PPE)

Eye protection Wear safety goggles and face shield.

Skin protection Wear impervious gloves and appropriate non-porous protective clothing. Do not wear short sleeve tops or short pants where unprotected skin is exposed.

Hygiene measures Use and maintain good industrial hygiene. Always wash hands after use. Routinely maintain safety equipment. Do not eat, smoke or drink when handling this product.

SECTION 9		Physical & Chemical Properties
Appearance		Various colours.
Odour		Characteristic.
Odour threshold		Not available
pH		Not available
Melt point / freeze point		Not available
Boiling point		Not available
Flash point		Not available
Evaporation rate		Not available
Flammability		Not available
Upper/lower flammability limits		Not available
Vapour Pressure		Not available
Vapour Density		Not available
Relative density		Not available
Solubility in water		Soluble
Auto-ignition temperature		Not available
Decomposition temperature		Not available
Specific Gravity		Not available

SECTION 10		Stability & Reactivity
Reactivity		Product is considered non-reactive under normal conditions of use, storage and transport.
Chemical stability		This product is considered stable under normal conditions of use, storage and transport.
Possibility of hazardous reactions		No hazardous reaction known under normal use.
Conditions to avoid		Ignition sources and heat.
Incompatible materials		Strong acids, bases and oxidizing agents.
Hazardous decomposition		If in fire product may give rise to the release of obnoxious fumes including oxides of carbon.

SECTION 11		Toxicological Information
Information on possible routes of exposure		
Skin contact		May cause skin irritation
Eye contact		Severe eye irritation. Serious eye damage
Ingestion		May cause mucous membrane and gastrointestinal irritation. May be harmful if swallowed
Inhalation		May cause respiratory irritation.
Symptoms related to exposure		Direct contact with eyes may cause blindness. Direct contact with skin may cause burning, redness and general irritation.
Acute		No information available for this product
Serious eye damage / irritation		Causes serious eye irritation and damage.
Skin corrosion / irritation		May cause skin irritation.
Germ cell mutagenicity		No data available.

Carcinogenicity No data available for this product.

Reproductive toxicity
No data available..

Specific Target Organ Toxicity (STOT) – repeated exposure
No data available for this product.

Aspiration hazard No data available.

Additional Information

This product does NOT contain egg, dairy, soy, seafood, shellfish, wheat or peanut products, or derivatives.

SECTION 12 Ecological Information

Ecotoxicity No specific data is available for this product. However, do not release this product or any water contaminated with this product into drains, soils or waterways. Sufficient measures should be taken to retain the water used in extinguishing any fires involving this product. Dispose of contaminant in accordance with local landfill or incineration regulations.

Persistence and degradability
No specific data available.

Bio accumulative potential
No specific data available.

Mobility in soil No specific data available.

SECTION 13 Disposal Considerations

Disposal methods Dispose of this product and any water contaminated with this product in accordance with local regulations.

Contaminated packaging
The container in which the product is/was contained should also be disposed of in accordance with local regulations.

SECTION 14 Transport Information

ADG Not regulated as dangerous goods.
IATA Not regulated as dangerous goods for IATA
IMDG Not regulated as dangerous goods.

Special Precautions No special precautions or requirements for transport

SECTION 15 Regulatory Information

Safety, health and environmental regulations
This Safety Data Sheet was prepared in accordance with Safe Work Australia's Code of Practice for the Preparation of Safety Data Sheets for Hazardous Chemicals.

Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP)
Schedule 6 Poison (Basic Blue 7)

AICS All components are listed in the Australian Inventory of Chemical Substances.

SECTION 16

Other Information

Reason for Revision Update Review and update information in accordance with SWA and GHS requirements. Section 1, 2, 3, 8 and Section 15 information changes.

TWA The TWA (Time Weighted Average) exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The term “peak” is used when the TWA limit, because of the rapid action of the substance, should never be exceeded even briefly.

STEL The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL.

ADG Australian Dangerous Goods Code
